

A vibrant spring-themed illustration featuring a central yellow sun with rays, surrounded by various flowers in shades of yellow and orange. A bee is shown flying from a large sunflower on the left, leaving a dotted trail. A ladybug is also present on the right side. The overall design is bright and cheerful, with a white background.

The reason I Love

Thankful for the rain

Life- giving rain

I was blessed in having Easter  
with two of my sisters and their  
family. But mostly I am thankful  
for my 50 min conversation with  
my son at A&M who we didn't  
get to see for Easter.

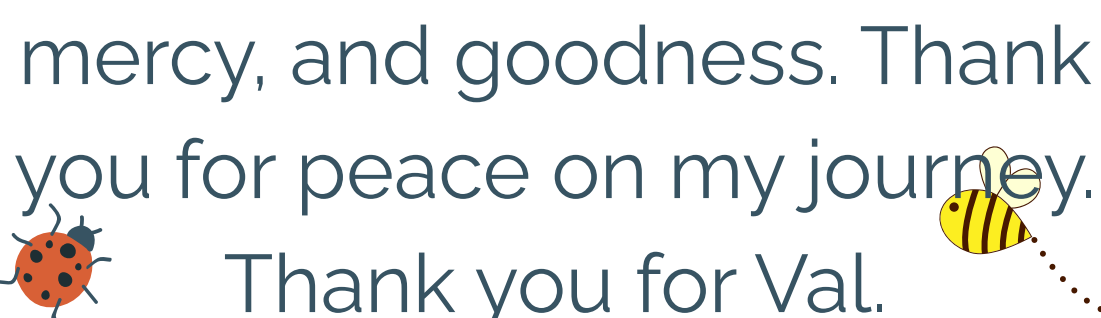

Blessed with opportunities to  
be a blessing to others.

Blessed with forgiveness and  
eternal love.

Prayers for comfort during this  
hard week. Prayers for Bella  
R.I.P.

Lord, thank you for your love,  
mercy, and goodness. Thank  
you for peace on my journey.  
Thank you for Val.
